PLEASE VISIT OUR WEB SITE WWW.CYCLESIREN.COM**

CYCLESIREN Siren & Lighting are lightweight, watertight and the LED lighting is high-visibility daylight viewing. The handlebar mounted tactile switch-box controls the siren sounds & lighting functions, including the optional taillight. Siren audio output power meets or exceeds the 115db level required for a bike patrol siren (115db SPL @ 3 feet). The sound modes are (*Wail & Yelp*) or (*Hi-Low & Yelp*), *Phaser* and *Horn* or *Whistle* (sound combinations are User programmable).

CYCLESIREN is a Custom Manufacture of Sirens & Lighting equipment for Public Safety. Our products constructed with pride in the **U S A**.

CYCLESIREN warranties our siren products for one year, excluding battery warranty of 90 days.

¹ The 12-volt siren is for use on Golf Carts, ATV's and Gator™ Utility Vehicles, for pedestrian warning ONLY.
² The Patrol white LED streetlight is designed for in-city use with the aid of city street lighting and should not be used for mountain biking or as the main lighting in very dark areas. The Patrol siren white light is designed the light the road in front of the by bike by 10 to 15 feet.
³ An optional white streetlight for the Patriot mini-siren is \$75.
⁴ The Patriot CAL (California) is the model recommended for Calif. Police Patrol (SOLID RED ON regulation).
⁵ Upgrade price replaces the 8-hour charger and 1600mAh battery normally provided with a siren.
